Goals	Fulfilling all business requirements with few or no defects with final user acceptance criteria
Meeting norms	Regular frequent meetings. Mandatory for everyone to join in time. Wednesday 12:30 - 01:45 PM (Mandatory meeting).
Working norms	Every member has a defined responsibility. Every member can collaborate/help others as well.
Coordination norms	Product owners are Scrum masters initially. Software developers also act as scrum masters on rotational basis. Scrum master moderates the team meetings/allocates assignments/lead team meetings
Communication norms	Discord. Group communication. Team members are expected to respond promptly. Acknowledge messages with in one or two hours.
Consideration norms	Side conversations are allowed as required. Decisions are finalized based on team's overall agreement (via. group voting etc)
Cont. improvement norms	Track the progress of tasks in scrum board. Team members are expected to update the status promptly with comments. Contructive feedback on each others coding style to maintain uniformity in the code.
Rewards	Completion of big tasks as per acceptance criteria.
Sanctions	Team member needs to do 30 push ups as a punishment on camera

Product Vision	Project Mission
Helping Open-/Inner source initiatives improve their work and raise awareness for great projects.	Developing an awesome app without hating each other afterwards. Having a clear overview over all the different inner source projects within Datev and improve collaboration within the company. The goal is also to give improvement suggestions to maintainers about the quality of their project.
